

To The Class Of Of '78

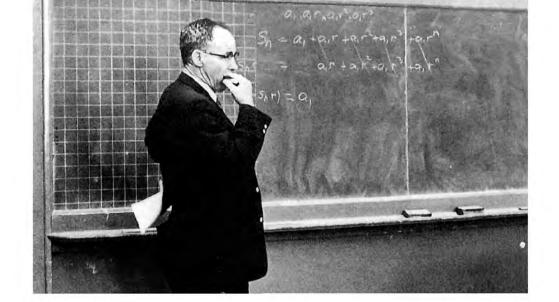

There are traditionally two patterns for Headmaster's statements to graduating classes. The first elicits images of days gone by, of elementary school classes, of the day that John Jones ______, and asks the class member to remember his old school as he sets forth on a new journey. The second exhorts each individual to charge onward ablaze with knowledge and a sense of justice to bring some order to the world that generation after generation of adults has failed to civilize.

Certainly, we hope that you have fond memories of the days you have spent at Penn Charter and that those memories remain fresh and joyful in the years to come. In my short time with you, I have noticed many examples of leadership and cooperation that will remain as positive memories in my own thoughts of the Class of 1978. The excellent production of Richard III, the strong records of all the fall sports teams, the approach of many class members to responsibilities on The Mirror and The Class Record, and the strong ledger of academic accomplishments of the class come quickly to mind. In addition, the warmth of individual students has made your class an enjoyable group of young men to teach. As we look to the future, there is every reason to believe that you will make a contribution to the society in which you live.

Graduation, however, offers another opportunity in addition to the traditional peering both into the past and into the future. It is a time when you can step aside and look at your own development. Have you acquired the skills and the factual background that you would like to have as you leave Penn Charter? Do you have the sensitivity to others and the concern for the welfare of others that we so often talk about as goals? It is good to remember that in many ways the final evaluation of an education is in terms of what it means to those who live around you. Such moments of self analysis can be of significant value to our self development.

Finally, remember that a part of each of us goes forward with you as you leave Penn Carter. We will welcome your return and will remain ready to help you in any way that we are able in the years to come.

Earl J. Ball III

The Penn Charter Class of 1978 respectfully dedicates this yearbook to Charles Conard. Having been at Penn Charter for thirty-one years, he has served the school faithfully as math teacher, track and soccer coach, and, most recently, as head of the mathematics department.

"Chick" has been a mainstay of the faculty for many years, and his devotion to both the school and to his field is recognized by our class. An outstanding teacher, advisor, and friend to many students, he has always been willing to share his time so that we could share our problems.

This year he is "graduating with our class", as he himself puts it, and he is leaving many affectionate memories with the school. We are glad that we have been able to benefit from this man, but we feel sorrow for those classes who will pass through the school without his influence.

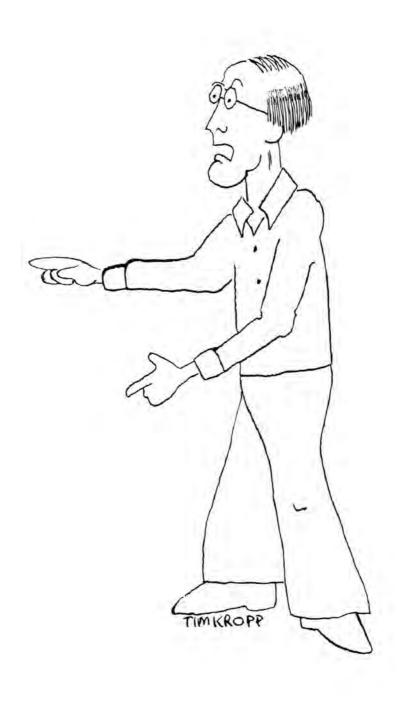

Molding the soft, oozing clay of Penn Charter students into solid young men, the faculty are the master craftsmen of the school. However, they could never replace the lower school art teacher.

Get Up, Blues Blues Never climb a hill Or sit on a roof in starlight.

Blues
Just bend low
and moan in the street
and shake a borrowed cup

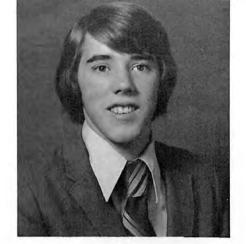

Blues
Just sit around
Sipping,
Hatching yesterdays

Get Up, Blues.
Fly.
Learn what it means
To be up high.

WE'RE WONDERING

How Doc got all those empty liquor cases so fast.

Why Balbus parted his hair in the middle.

If Mrs. Simon was really related to Scott.

If Jansson will ever leave.

What really happened in Jay's bug on Vaux St...

Why Bush always had trouble with his pupils.

What Kelly was really packing in those picnic baskets.

Where Glickman bought his ears.

Why Kuehn had a roll of toilet paper in his desk.

If Peltz's beard is real.

If Gormley takes hormones.

If Walt actually knows the answers.

If Lifson has any skin under his coat.

If Loughery knew which team Liebetori and Novac were on.

Where Mitch gets his hair done.

Why Saltzman buys tin foil.

Who took the medallion ... and the hood ornaments.

If the math team ever finished above third place ... probably not.

Where Kuehn gets those little known dates for his blackboard.

What is in Maguire's tool chest.

If Kelly really likes apples.

Who taught Simon how to fly.

What N₉O does.

If Iademarco ever sat in the back of a room.

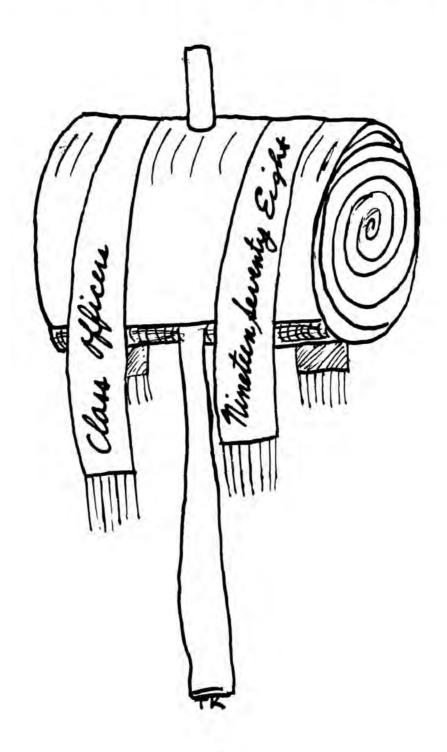

If Jones' dog is trained to sniff pot.

Where Mr. Ball gets his glasses and haircuts.

What happened to The Senior Year.

What happened to Wynn Segall's birthday suit on pg. 75.
